Polled Shorthorns are growing in popularity year by year. This statement is substantiated by impressive statistics released recently by the American Shorthorn Breeders' Assn. Registrations in 1947 showed a 20% increase over 1946 and a 103% increase over 1940. Average prices received by breeders of Polled Shorthorns during 1947 was 23% higher than in 1946. More and more breeders are including Polled Shorthorns in their farming operations. Help meet this demand by securing the right kind of seed stock in this sale for your foundation herds.
